

Google Chrome Default Browser on iPads

1. Find the Google Chrome app on iPad home screen.

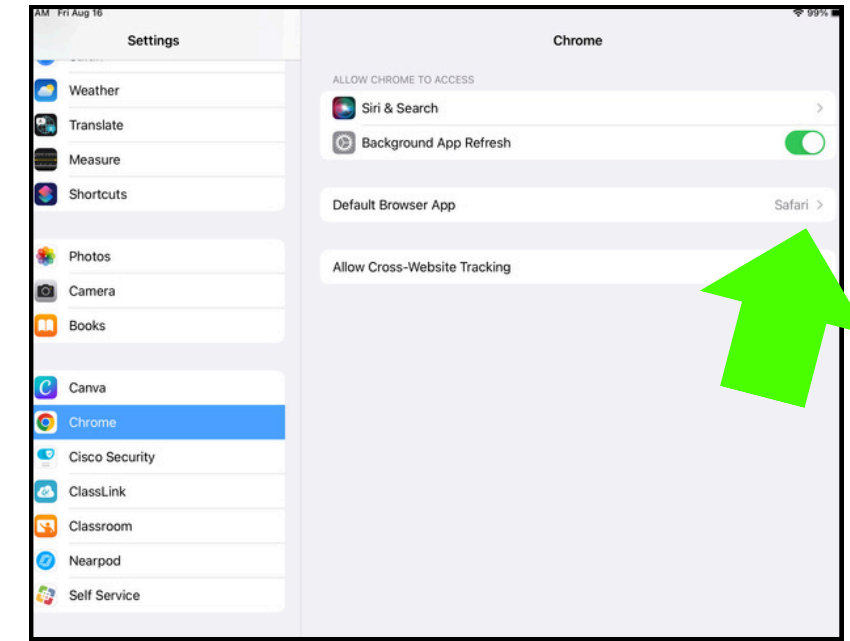

(If it is not there, download it from Self-Service Kiosk)

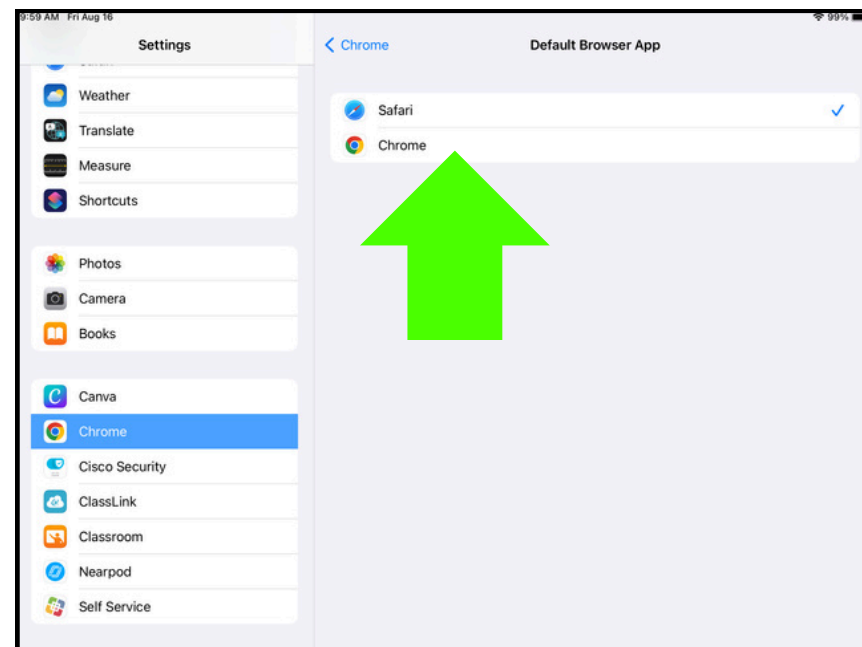

2. Go to **SETTINGS**, scroll down, then tap on Chrome.

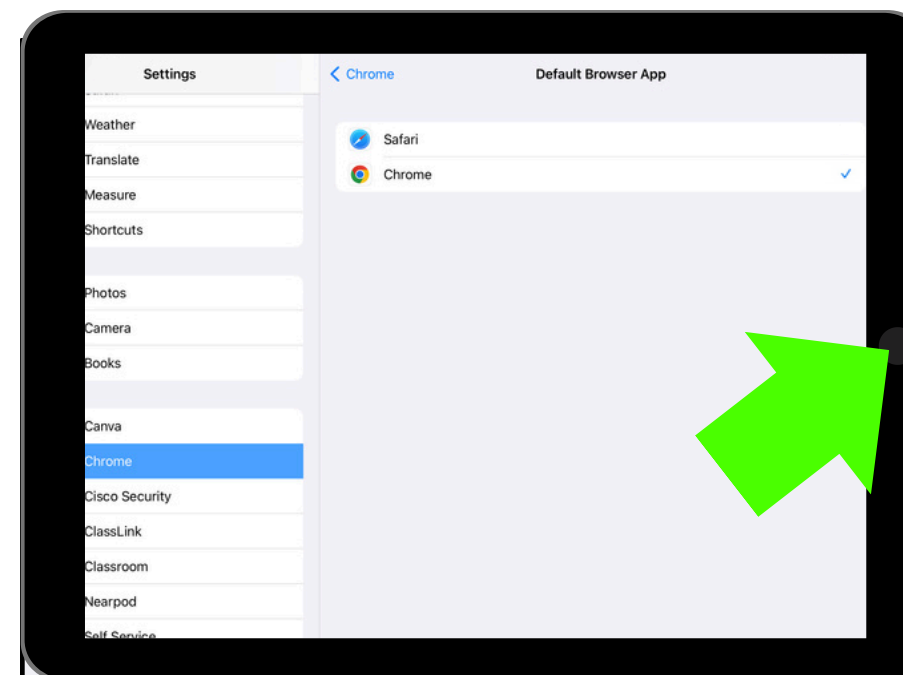

3. Tap the **ARROW** next to the word **Safari** in the Default Browser App bar.

4. Tap the Google Chrome icon to make it the iPad's default browser.

5. Tap the iPad home button to exit out of settings.

Note: The Google Chrome browser is **REQUIRED** for STAR testing on iPads.

*If you find other iPad apps are not working properly in the Chrome browser, return to settings and follow the steps to **REVERT** iPad back to the Safari web browser.*
