

USING GREEN SCREEN IN IMOVIE ON THE IPAD

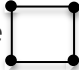

GETTING STARTED

-  Save all your green screen footage and/or images in **PHOTOS** on the iPad.
-  Open iMovie on the iPad, tap the **+** then choose **MOVIE**.
-  Tap the background you are going to use, then tap **CREATE MOVIE**.

ADDING GREEN SCREEN IMAGE/VIDEO

-  Place the white **PLAYBAR** where you want the green screen image or video to begin.
(NOTE: green screen images and video will go directly in the center and cannot be moved)
-  Tap **VIDEO** or **PHOTOS** to locate and **TAP** on the green screen image/video.
-  Once image/video is highlighted in yellow, **TAP** again.
-  Tap the 3 dots and choose **GREEN/BLUE SCREEN**.

ADJUSTING GREEN SCREEN

-  Tap on the **GREEN SCREEN** image/video located above the background.
-  Tap on the  located under the gear wheel to crop size of green screen.
-  Tap the  located under the gear wheel to adjust the strength of the green screen.

SAVING

-  When iMovie is complete, tap **DONE**.
-  Tap **MY MOVIE** to title the movie, then tap **DONE**.
-  Tap the **SHARROW** icon  and choose **SAVE VIDEO**.
-  Saved videos can be found in the iPad photo album.
