

## Updating to Newest iPadOS

### CHECKING YOUR iPadOS VERSION:

- 🍏 Tap on **SETTINGS**.
- 🍏 Tap on **GENERAL**.
- 🍏 Tap on **SOFTWARE UPDATE** located on the right side of the iPad screen.
- 🍏 The iPad will tell you if your iPadOS is up to date or will show you the **newest** iPadOS available.

### DOWNLOADING THE NEWEST iPadOS:

- 🍏 **Plug** the iPad into a power source.
- 🍏 Tap below the iPadOS software information, where it says: **Download and Install**.
- 🍏 Wait until the iPad returns to its usable state. Some iPadOS updates may take up to **30 minutes** or more to complete.
- 🍏 When the iPad has finished updating, tap the **Home Button** to begin using the iPad.

*Note: If apps that were troublesome before the update are still not functioning properly, delete them from the home screen and re-download them from the Self-Service app.*
