

Stop Motion Color, Shape, and Size

Set Up:

- Make sure the Stop Motion app is downloaded onto every student iPad.
- Open the app on EACH iPad and “warm the iPad” meaning, get it ready for student use:
 1. Tap Get Started
 2. Take 1 photo
 3. Tap ALLOW for camera use
 4. Tap the microphone icon
 5. Tap ALLOW for microphone use

Go Live:

- Open Stop Motion app and show them the project example you made
- Tell students they will be in pairs and have 2 decisions to make BEFORE they start the project.
 1. Who will be the iPad holder?
 2. Who will move the items?
- Demonstrate the process with a volunteer to hold the iPad.
 1. iPad holder holds iPad VERY still and taps the camera button when partner says NOW.
 2. Partner moves an object one time then says NOW.
 3. Partner moves the object a second time into the last position and says NOW. (continue moving all objects until complete)
 4. Show how to delete a picture
 5. Show how to copy and paste group of photos 3x
 6. Show how to record voice
- Tell students there are 2 challenges:
 1. Moving all objects and placing them in groups by color and shape.
 2. (Switch jobs) Moving all objects and placing them in groups by color and size.
- Have teacher inform kids who they will be partnering with
- Use classroom manipulative supplies and give out to each group as they decide who will be the iPad holder and who will be
- Say Apple Turnover to begin and walk around assisting.
